

# LEARN ABOUT WATER

The Town of Castle Rock Water Department will come to your classroom with an interactive presentation covering:

- The water cycle
- Where Castle Rock gets its water
- Groundwater and surface water
- Stormwater and water quality
- Importance of conservation.

Students will help build an aquifer in a fish tank.

For questions and more information about scheduling a classroom visit, please contact **Rick Schultz, Water Conservation Specialist** [RSchultz@CRgov.com](mailto:RSchultz@CRgov.com) or (720)-733-6027

*The entire program takes about 60-70 minutes, and is available at no charge to the school.*
